ABOUT MYSELF

I have experience in creating high-quality applications, with a focus on solving complex tasks and generating effective ideas. My exceptional responsibility and motivation set me apart, helping me develop professional skills and stay at the forefront of modern technologies. I easily adapt to teamwork and am also able to work productively on my own.

I am committed to continuous learning and self-improvement, always seeking new opportunities to expand my knowledge and experience in the tech field. I have strong skills in quickly finding and analyzing information, allowing me to stay up-to-date with the latest trends and technologies.

EXPERIENCE

2024 – Present

- **Freelance**. Development of an e-commerce platform based on the MERN stack, enabling users to easily browse, search, and purchase products. The project included implementing user management, a shopping cart, order processing, and integration with payment systems for secure transactions. ↗

  Development of a food ordering platform using the MERN stack, featuring user registration, restaurant search, an admin panel for content management, a shopping cart with Stripe payment integration, and real-time order status tracking. ↗

- **Entrepreneurship in the field of trade and services.**

2022 - 2024

Head of the Legal Department at a construction company.
Led a team of lawyers, coordinated the legal support processes for transactions, and represented the company's interests in negotiations. Ensured compliance with all legal requirements at various stages of construction projects, minimizing risks and contributing to the effective execution of business objectives.

2020 - 2022

Lawyer. Responsible for preparing claims, managing contract work, and providing legal support for cases.
